New Jersey Falun Dafa Association
5 Winnie Court
Edison, New Jersey 08820

Dear Friends of Falun Dafa:

On behalf of the people of Newark, it is a privilege and a pleasure to congratulate the New Jersey Falun Dafa Association as it celebrates its 23rd anniversary today and the 30th anniversary of World Falun Dafa as a whole!

Falun Dafa is an ancient and peaceful spiritual practice, rooted in Chinese culture, with 100 million adherents worldwide. It seeks to improve health, purify minds, uplift spirits, and bring understanding between peoples through exercise and meditation. In the last three decades, its teaching have been translated into 30 languages, and millions of people across the world have been transformed for the better by the physical, mental, and moral improvement the practice offers.

Falun Dafa practitioners have brought these arts to many places across our state, including senior centers, corporate offices, health clubs, parks, libraries, and private homes. Their timeless values of a healthy and peaceful mind and body empower many people of many ages. We feel privileged to have you as members of our community.

Best wishes for a memorable anniversary!

Sincerely,

Ras J. Baraka
Mayor
